NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in Canadian Dollars)

FOR THE THREE AND SIX MONTH PERIODS ENDED JUNE 30, 2020 AND 2019

1. INCORPORATION AND NATURE OF OPERATIONS

Spackman Equities Group Inc. (the "Company" or "SEGI") was incorporated on May 18, 2006 under the Canada Business Corporations Act and its shares are publicly traded on the TSX Venture Exchange ("TSXV") under the symbol SQG. The registered head office is located at Scotia Plaza, 40 King Street West, Suite 2502, Toronto, Ontario M5H 3Y2, Canada.

SEGI carries on the business of identifying and investing into or acquiring small/medium sized growth companies. The Company focuses on investing into or acquiring growth companies in Asia, principally in the Republic of Korea ("Korea") at attractive valuations, building a diversified portfolio of such growth companies and, ultimately, delivering the collective value derived from the performance of these businesses to the shareholders.

These condensed interim unaudited financial statements have been prepared on a going concern basis, which contemplates that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. The Company has not yet realized profitable operations and has incurred significant losses to date resulting in a cumulative deficit of \$12,142,042 as at June 30, 2020 (December 31, 2019 - \$11,075,896). Management believes that it has the ability to raise the required additional funding. While management has been historically successful in raising the necessary capital, it cannot provide assurance that it will be able to execute on its business strategy or be successful in future financing activities. As at June 30, 2020, the Company had current assets of \$1,706,548 (December 31, 2019 - \$2,744,011) to cover current liabilities of \$688,758 (December 31, 2019 - \$660,075).

2. BASIS OF PRESENTATION

Investment Entity Status

The Company does not qualify as an investment entity as the concentration of its investments is not sufficiently diversified. It is determined that the company's main investee company, Spackman Entertainment Group Limited (SEGL), is considered an associate, as the Company is considered to have significant influence over it. As the Company is a venture capital organization, and as permitted under IAS 28, it has elected the option to record the investment in SEGL at fair value through profit and loss.

Statement of compliance

The condensed interim unaudited consolidated financial statements have been prepared in accordance with International Accounting Standard 34, "Interim Financial Reporting" ("IAS 34"), as issued by the International Accounting Standards Board ("IASB") and therefore, do not contain all disclosures required by International Financial Report Standards ("IFRS") for annual financial statements. Accordingly, these condensed interim unaudited consolidated financial statements should be read in conjunction with the Company's most recently prepared audited annual financial statements for the fiscal year ended December 31, 2019.

The policies applied in these condensed interim unaudited consolidated financial statements are consistent with the policies disclosed in Notes 2 and 3 of the audited annual financial statements for the year ended December 31, 2019.

The condensed interim unaudited consolidated financial statements were authorized for issue by the Board of Directors on August 27, 2020.

Basis measurement and functional currency

The condensed interim unaudited consolidated financial statements are presented in Canadian dollars and have been prepared on the historical cost basis except for financial instruments measured at fair value through profit or loss. Historical cost is generally based on the fair value of the consideration given in exchange for assets. The Company and its subsidiary's functional currency is the Canadian dollar.

(Expressed in Canadian Dollars)

FOR THE THREE AND SIX MONTH PERIODS ENDED JUNE 30, 2020 AND 2019

2. BASIS OF PRESENTATION (Cont'd)

Basis of consolidation

These condensed interim unaudited consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, SEGI Investments Limited, a BVI company. A subsidiary is an entity in which the Company has control, directly or indirectly, where control is determined based on whether the company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

3. CHANGES IN SIGNIFICANT ACCOUNTING POLICIES

New Standards adopted as at January 1, 2019

The Company has adopted the following new or amended IFRS standards for the annual period beginning on January 1, 2019.

IFRS 16 Leases

The Company adopted IFRS 16 using the modified retrospective transition approach.

At inception of a contract, the Company assesses whether a contract is, or contains, a lease based on whether the contract conveys the right to control the use of an identified asset for a period in exchange for consideration.

As of June 30, 2020, December 31, 2019 and 2018, the Company had no lease agreements in place as all leases of office space were cancelled in 2017.

IFRIC 23 Uncertainty over Income Tax Treatments

In June 2017, the International Accounting Standards Board (IASB) issued a new International Financial Reporting Interpretations Committee (IFRIC) interpretation, incorporated into Part I of the CPA Canada Handbook – Accounting by the Accounting Standards Board (AcSB) in September 2017, to specify how to reflect the effects of uncertainty in accounting for income taxes. IAS 12 Income Taxes provides requirements on the recognition and measurement of current or deferred income tax liabilities and assets. However, it does not provide a specific requirement for the accounting for income tax when the application of tax law to a particular transaction or circumstance is uncertain. As a result, the interpretation aims to reduce the diversity in how entities recognise and measure a tax liability or tax asset when there is uncertainty over income tax treatments. For the year beginning January 1, 2019, the implementation of IFRIC 23 did not have a material effect on the financial statements.

6. INVESTMENT IN SHARES OF PRIVATE COMPANY

The Company has historically made investments in private companies through equity and debt investments. Due to uncertainty surrounding these investments, the Company historically wrote down these investments to a nominal value. The Company considers these investments, which were written down in the past, to still be impaired during the current period.

During the year ended December 31, 2017, the Company purchased 130,000 common voting shares of Spackman Media Group Limited (SMGL) for USD \$390,000 (CAD \$491,595), or USD \$3.00 (CAD \$3.78) per share, from an unrelated shareholder of SMGL. Fair value was measured in accordance with the Company's accounting policy for private company investment, as discussed in Note 12.

On June 10, 2020, the maturity date of the loan payable by the Company was extended to June 9, 2021. The change in the loan balance as at June 30, 2020 is due to the effects of movements in the exchange rates for the US dollar. Accrued interest on the loan amounts to \$5,561.

12. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Company's significant financial instruments comprise of cash, other receivables, investments in shares of private and public companies, loan receivable and accounts payable and accrued liabilities.

The Company classifies financial instruments in accordance with a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 Quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability;

Level 3 Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity).

The determination of what constitutes observable data, requires significant judgement by the Company. The Company considers observable data to be market data that is readily available, reliable, verifiable and provided from independent transactions.

Risk management

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

12. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (Cont'd)

The Company has exposure to the following risks from its use of financial instruments:

(a) Market risk

Market risk is the risk that the fair value of, or future cash flows from, the Company's financial instruments will significantly fluctuate due to changes in market prices. The value of the financial instruments can be affected by changes in interest rates, foreign exchange rates, and equity prices. The Company is exposed to market risk in trading its investments, and unfavourable market conditions could result in dispositions of investments at less than favourable prices.

(b) Credit risk

Credit risk is attributable to cash and loan receivable. The Company's other receivables are current and cash and cash are held with reputable financial institutions. The carrying value of loan receivables and cash represents the Company's maximum exposure to credit risk.

(c) Liquidity risk

13. SUBSEQUENT EVENT

In the first quarter of 2020, there was a global outbreak of COVID-19 (coronavirus), which has had a significant impact on businesses through the restrictions put in place by the Canadian, provincial and municipal governments regarding travel, business operations and isolation/quarantine orders. At this time, it is unknown the extent of the impact the COVID-19 outbreak may have on the Company as this will depend on future developments that are highly uncertain and that cannot be predicted with confidence. These uncertainties arise from the inability to predict the ultimate geographic spread of the disease, and the duration of the outbreak, including the duration of travel restrictions, business closures or disruptions, and quarantine/isolation measures that are currently, or may be put, in place by Canada and other countries to fight the virus.

While the extent of the impact is unknown, we anticipate this may affect our investments, with the outbreak causing reduced customer demand, supply chain disruptions, staff shortages, and increased government regulations, all of which may negatively impact the Company's investments.

On August 18, 2020 the Company announced that it had entered into a non-binding memorandum of understanding ("MOU") with Spackman Entertainment Group Limited ("SEGL"), a company listed on the Catalist Board of the Singapore Stock Exchange, to acquire SEGL's entire interest in Spackman Media Group Limited ("SMGL").

Under the MOU, the Company will acquire all of SEGL's 13,968,038 common voting shares of SMGL, representing a 43.88% interest in SMGL, to be fully paid by newly issued common shares of the Company at a price to be determined by the parties.

Upon completion of the proposed acquisition, the Company and SEGL plan to develop, produce and finance motion pictures and entertainment content targeted for the North American market, as well as develop other entertainment-related businesses in North America.
